Hiring Manager
Walton Digi-Tech Industries Ltd.
Plot-1088, Road # 80ft-2, Block-I, Bashundhara R/A
Dhaka-1229

Dear Hiring Manager

I am writing this letter to express my interest in the position of Process Engineer (Mobile), whose vacancy I came to know about from a job advertisement you had published on 27th May on www.bdjobs.xyz. I am specifically keen on the opportunity of being able to work for a renowned company such as Walton as it is the foremost producer of consumer electronics in Bangladesh.

In the process of obtaining my bachelor's degree in EEE from AIUB, I interned at Transsion Bangladesh's smartphone assembly plant where I learned about the production process of mobile phones, especially about how to test for faults and ensure the product quality meets established standards. During this time, I have also learned to adopt an outside-the-box mindset when approaching problems, favoring solutions which required minimal resources to implement. I am also experienced in teamwork, as I often had to supervise multiple projects simultaneously throughout my student life. I believe that my proficiency in these areas has adequately equipped me to tackle the challenges encountered by a process engineer.

In addition to my desire of working in manufacturing, I am also enthusiastic about the prospect of working for a rapidly growing company like Walton and wish to contribute my skills to this continued growth. The company's stated objective of becoming the top electronics brand in the world is an extremely ambitious goal to strive towards, which nonetheless is an attractive proposition for fresh minds with big ideas. I recognize that to be competitive on the global stage, good communication and presentation is a must, which is why I have honed my communication skills in order to be ready to work beyond borders.

Working at Walton Digi-tech will be a great opportunity for me to learn and expand my skillset. Enclosed with this letter is my CV, and I will gladly answer any further questions you may wish to ask by contacting me at 0171[redacted] or at [redacted]@gmail.com. Thank you in advance for your consideration.

Sincerely yours,

[redacted]

Enclosed: CV

Career Objective

I am a self-motivated and hard-working person with excellent career development prospects and prove my potentiality in the relevant field where hard work, strong work ethic, communication skills, and creative problem-solving compatibility are the cornerstone of success. I am sure that I would be able to accomplish the goal with which my employer will entreat me.

Profile

- Self-motivated, analytical, innovative, and confident.
- Able to work under pressure and challenging atmosphere.
- Well discipline and organized, presentable, energetic, and enthusiastic with excellent communication skills.
