TiCON System Ltd.
Level 6, House of Veritas,8 Gareeb-e- Nawaz Ave
Dhaka 1230, Bangladesh

Dear Sir/Madam,

I am writing to express my interest in the Java (Spring Boot) Developer job position. I did my BSc from American International University-Bangladesh, majoring in Computer Science and Engineering. I found this job through the bdjobs.com website. As this company is quite reputed and I am confident about the requirements mentioned in this job advertisement, I would love to work with you.

As a java developer, I have learned quite a few frameworks such as Hibernate, Spring, and JSF. Spring is one of those, that is required for this job. As a programmer, I also mastered the Spring Boot framework which is an extended version of the Spring framework. I did my internship at xyz ltd. I completed multiple web development projects using Spring Boot, AWS, docket during my internship. I have also worked with a software firm for 3years. So I have a decent knowledge of teamwork.

As an active member of xyz ltd., I've achieved some reputation throughout the organization due to my dedication. I would like to contribute to this company as this is a well-known company and other benefits are also quite impressive. I'm confident about my skills in the Java SpringBoot framework as well as database integration. And I also have experience with teamwork as I've worked with some teams in the previous software firm. So I think you'll not be disappointed by me.

As a back-end programmer, I found this job as a golden opportunity for me. In most cases, people want front-end developers. But as you need someone with decent skills in java spring framework and database, you can judge me for that. If you give me the chance to work with you, I'll get to learn something more from you for sure. I'll also try to increase your recognition through my hard work. So I would welcome the opportunity to speak with you and can be reached at (+880)1875609450 and 20-42650-1@student.aiub.edu.

Thank you for your time and consideration.

[redacted]
Sincerely,
[redacted]
